## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17, it is not clear which the steps recited in claim 13, since claim 13 is an apparatus claim which depended on an independent claim 1.

### ***Allowable Subject Matter***

Claims 1-16, 20-22 are allowed.

Claims 1-13 call for, among others, a current controller for controlling current steering and at least one offset current in the differential amplifier based at least in part upon the adjustment signal and a current steering control signal.

Claims 14-16, 20-22 call for, among others, method of adjusting at least one offset current component of the differential amplifier until a differential output voltage from an output of the differential amplifier is equal to zero; applying a differential twist voltage reference signal to the input of the differential amplifier; and adjusting tail current components of the differential amplifier until a differential output voltage from an output the differential amplifier is equal to zero.
